Responsible and orderly fresh graduate in Computer Science and Engineering from IIUC, seeking my first work experience, where I can apply my programming and teamwork skills and keep learning.

EXPERIENCE

Fresh Graduate
Computer Science and Engineering
International Islamic University Chittagong (IIUC)
B.Sc. completed 2026
• Seeking my first full-time role in the software field

Teaching Assistant
International Islamic University Chittagong (IIUC)
Spring 2026
• Courses: EEE-2421 and CSE-24121
• Lab assessment
• Report evaluation

ACHIEVEMENTS

• **The Role of Deep Learning in Biomedical Image Analysis** — IIUC Tech Fest 2025, IEEE Computer Society IIUC SBC (Nov 2025)

• **Machine Learning & Computer Networking** — New Vision Information Technology Ltd. & IEEE ComSoc IIUC SBC (Feb 2024)

• **CUET National Space Carnival 2017** — Chittagong Divisional Round (Jan 2017)

• **BCSIR Science & Industrial Technology Fair 2017** — Chittagong (Jan 2017)

• **Confidence Cement–Prothom Alo Tarunya Utsab 2016** — inter-school debate

EDUCATION

B.Sc. in Computer Science and Engineering
International Islamic University Chittagong
2022 – 2026 · CGPA 3.58

HSC · Science Group
Chittagong Govt. Women's College
2018 – 2019 · GPA 5.00

SSC · Science Group
CDA Public School and College
2016 – 2018 · GPA 5.00

SKILLS

Languages
Python, JavaScript, TypeScript, C, C++

Tools
Oracle, XAMPP, Visual Studio Code, MongoDB, Arduino IDE, draw.io, AutoCAD, GitHub

Personal
Teamwork, Leadership, Time Management, Work Efficiency, Morality

PROJECTS

Hospital Management System
Manages patient, doctor and appointment records in a structured database.
Tools: MySQL, core programming

Bank Management System
Handles customer accounts and transactions; designed with ER diagrams in draw.io.
Tools: Oracle Database, draw.io

Online Survey and Polling System
Create surveys and polls, collect votes online and view results.
Tools: Python, PHP

Automatic Plant Watering
Senses soil moisture and runs a pump motor to water plants automatically.
Tools: Arduino Uno, sensors, motor

Adaptive Planning System for Time and Budget
Plans tasks and budget, adapting as time and spending change.
Tools: JavaScript, MongoDB; deployed with GitHub, Vercel, Render
